In today’s competitive world, a strategic and cohesive approach to business and leadership is more important than ever to remain relevant and competitive. At Haskayne Executive Education, we partner with organizations to customize business leadership learning programs to their specific context to develop their leaders and shape the future of their business.

Our approach to contextualizing programs is to work collaboratively with your organization to understand the specific needs of your business, beginning with a needs analysis which will drive the specific design and delivery of the program.

Program Goals

Programs for organizations address the learning goals of both the organization and individual.

The overarching goal of this program is to collectively understand the root cause of various challenges being experienced within the organization and equip team members with confidence and skills necessary to effectively fulfill leadership roles and responsibilities. In addition, programs for organizations can result in building a common language, improving communication flow, and identifying operational challenges.
Program Objectives

The aim of this program is to:

- Develop a strategic plan and performance measures to build effective leadership practices and group decision-making skills
- Define and develop the desired leadership culture within the organization by cultivating curiosity in new leadership thinking and coaching and enhancing trust within the leadership and functional teams
- Integrate new business tools and frameworks into fabric of the organization

Program Design and Delivery

At Haskayne Executive Education, our aim is to deliver learning experiences that produce tangible performance outcomes for both the learners and their organizations. In collaboration with your organization, we will design a learning program that supports experiential learning and is grounded in adult learning principles and work-based learning practices.

This is a cohort-based, blended learning program delivered over a period of time. Typical program elements include real-time webinars, workshop-style face-to-face sessions, and think-tank projects to practice new business tools and frameworks within learning teams.

Specific content will be tailored to fit within the context of your organization. Delivery of the program will be scheduled at the time most convenient to your organization’s work cycle.

The below program design provides an example of what your program could look like*

*Note: Every custom program is designed through a consultative and collaborative needs-assessment process. This program may be eligible for grant funding up to five weeks prior to program start.

Your organization’s learning objectives and program design will be unique.

Brochure samples are to be interpreted as examples only.
**Program Investment**

The blended, business leadership development program includes the following:

Data-driven, program design in three phases

- **Identify**: learning need and performance issues including identifying key stakeholders and gaining an understanding of specific organizational context and learners
- **Define**: specific program goals, desired outcomes, success measures, learning objectives, learning transfer and evaluation plan
- **Design**: evidence-based, program structure and elements including contextualized content, learning activities, and work-based projects

Program delivery includes:

- Two (2) live webinars (pre/post program)
- Three (3) face-to-face workshops (7 hours)
- Delivery in Haskayne Executive Education facilities and virtual learning platforms
- All program materials and copyrights
- Certificate of completion from the Haskayne School of Business for all participants
- Program team consisting of subject-matter experts, an academic director, a manager of learning programs and a program coordinator

**Investment Range**: $20,000 per day. Based upon the following assumptions: maximum of 24 participants; 21 hours of face-to-face and 8 - 12 hours of blended learning; maximum of $250 /learner for assessment tools; UCalgary onsite delivery (downtown campus). Inclusive of materials, classroom space and virtual learning platform. Not including one-on-one leadership coaching.

**Faculty Lead**

Derek Hassey PhD. is the RBC Teaching Professor of Entrepreneurial Thinking at the Haskayne School of Business. An award-winning instructor, active small business and corporate advisor and program academic director, Derek's passion is teaching and research at the interface between Entrepreneurship and Marketing.
